

VIP: Vocational training In Prison
Analysis of innovations introduced in daily activities

1 What is the innovation recognized? (description of the innovation)

From our point of view, the recognized innovation, is the methodology. Target group participation has been essential to implement the methodology in this project.

2 Why is it innovative for your organisation? (describe what kind of improvement it will offer to your organisation)

For CONAE, we can talk about two types of innovation:

It is the first time we worked in the environment of penitentiaries. It was a highly interesting experience because we were able to meet the needs of this group and we were able to transfer our experience in training.

Secondly, working with seven countries exchange experiences and know-how, has been an important learning for our organization.

3 How do you carry out it?

The way to carry it out from now is to try to apply some of the methodologies to different groups working with CONAE, adapting the tools to each of the groups.
